

US 7: Event Booking

Feature Title	Booking an Event
Location	Event Management - Booking form
Description	As a <i>user</i> , I want to <i>book an event with a type and start/end dates</i> so that <i>the booking period is valid and categorized</i> .
<u>Acceptance Criteria</u>	<ul style="list-style-type: none">(1) The form contains a dropdown "Event Type" (values: Conference, Workshop, Seminar) as well as "Start Date" and "End Date" input fields.(2) The "Event Type" dropdown, "Start Date" input field, and "End Date" input field are all required.(3) If no event type is selected, the validation message "This field is required." must be displayed for the "Event Type" dropdown.(4) If no value is entered into the "Start Date" and/or "End Date" input field, a "This field is required." validation message must be displayed for the respective field.(5) The value entered into "Start Date" and "End Date" must be a valid date. If no valid date is entered, the validation message "Value is not a valid date." must be displayed for the respective field.(6) "End Date" must be the same as or later than "Start Date". If "End Date" is earlier than "Start Date", the validation message "End Date must be the same as or later than Start Date." must be displayed for the "End Date" input field.(7) Clicking "Submit" triggers validation.(8) If all fields are valid, the booking is saved and the user is redirected to the "Event overview" page.(9) Clicking "Cancel" closes the form and returns the user to the "Event overview" page without saving.
