US 4: Adding + tagging documents

Feature Title	Adding a new document
Location	Document Management - Directory overview
Description	As a *user*, I want to *upload documents and tag them* so that *they are easy to find later*.
Acceptance Criteria	(1) The page contains an "Add new document" button.

(2) Clicking the button opens the "Add new document" modal.

(3) **Modal Form Fields:**
 (3.1) "Name" input field (required).
 (3.2) "Document" file input (required, only accepts PDF files).
 (3.3) "Tags" dropdown (multi-select, contains all tags stored in the system).

(4) **Actions:**
 (4.1) Clicking "Cancel" closes the modal without saving.
 (4.2) Clicking "Save" triggers validation.
 (4.3) If validation passes, the document is uploaded.
 (4.4) After successful upload, the modal closes and the document is shown in the list.

(5) **Validation:**
 (5.1) If no name is provided, the validation message "This field is required." for the "Name" input field should be shown.
 (5.2) If no document is selected, the validation message "No document provided." for the "Document" file input should be shown.
 (5.3) If the selected file is not a PDF, the validation message "Only PDF files are allowed." for the "Document" file input should be shown.
